

Congratulation ! You are about to finished you Computer Schience degree, and looking for a job.

A friend, working in a secret agency, suggestedt you to submit your request, as they are looking for a new talants.

In order to applay, you need to generate a secret key, based on your personal ID, private and family name. The organization will check if you are sutable for their need and invite you for an interview.

The key generator is provided (named “secret”),but hardcoded with company best talants names. Try to add yourself to the list, and get a key for you. A test tool is also suplied (named “decrept”), don’t hesitate to use it before submiting your request,as only one submiting is allowed.

Technical Notes:

- Submission day – up to 02/4/23 08:00 am
- The Company will check authenticity, so no tricks.
- Put your results in ZIP (not rar/7z/tar etc.) and name it by your ID. (-15 points if not)
- Attach a screenshot (not from camera/phone) with your results of decrypt
- If you are late, you can submit up to 07/4/23 4:00pm. 10 points loose for each day.
- Don’t wait for the last minute, as “My VM is died”, “My cat swallowed thr pc mouse” and other subterfuges will not be accepted
- Note that the mark is Binary. Or all the data is correct, or zero (0) !
